Hi Glinda,
If you could forward a copy of you formaldehyde manuscript, I'll include it in the list of manuscripts as per Vince's request. He's asked for a draft it there's one in progress.
Thanks!
Sue

P.S. I'd say that before you're ready to submit for clearance, the paper should also be added to SCOUT. But I expect Barbara may want to do that (i.e., have the paper added to SCOUT) for continuity – and as a formaldehyde paper it makes sense to go through the Wash division.
